

# Be a SAVVY SHOPPER at the SECONDHAND TACK SALE

## BRING CASH

A few consignment stores will take plastic, but bring cash for the best deals.

## WHAT DO YOU REALLY NEED?

Your tack room is not a museum. Bring a list and a budget. You might save your marriage.

## BRING MEASUREMENTS

Bring a tape measure. Know your horse's head, bit, and blanket size, and gullet and seat size for saddles.

## BE PICKY ABOUT CONDITION

Look closely at leather fittings. If you have to pay to repair or deep clean it, it isn't a deal.

## NEVER BUY A USED HELMET

Don't trust your brain to someone else. Helmets are no good after one fall or 5 years.

## PRACTICE BIOSECURITY

Clean and sanitize before use. You wouldn't share a toothbrush, your horse doesn't want dirty bits.
