

Does that horse need help?

I'M FINE!

A few of my ribs are showing

I am standing or lying outside in a lot of mud or in bad weather

There is no grass in my field, BUT I am fed daily and have water all the time

If I get a bad injury or sickness, someone provides care

There are a few cracks and chips at the edges of my hooves

I am the only horse in my pasture, I neigh sometimes, and there are flies

I NEED HELP!

My ribs are sticking out and my hips and tail area are bony

I have no access to shelter at all, including trees

There is no grass in my field, AND I am not fed regularly, or I have no access to clean water

I have a serious wound or can't walk and no one is caring for me

My hooves are so long they are curling or have big pieces broken off

My owner does not live nearby and you are sure I am not checked on daily

If a horse needs help:

- **Contact the owner.**
- **If problems continue, contact your county/city Animal Welfare officer**
